

IMMUNO-ONCOLOGY INSIGHTS

SEPTEMBER 2020

GUEST EDITOR: Dr Jon Wigginton, former Chief Medical Officer and Senior Vice-President, Clinical Development, MacroGenics, Inc.
Clinical development strategy
Following the clinical success of the first wave of checkpoint inhibitors, what will move the needle again in terms of combinations in I-O?

OCTOBER 2020

GUEST EDITOR: Alfredo Perales-Puchalt, MD, PhD,
Vice President, Research & Development, Geneos Therapeutics
Next gen I-O approaches – what will follow the PD-1s?
Comparing and analyzing the preclinical and clinical data generated to date for key emerging modalities to provide both pointers and address remaining obstacles to success in solid tumours

NOVEMBER/DECEMBER 2020

GUEST EDITOR: Ashok K. Gupta, MD, PhD,
Global Clinical Head, Imfinzi Genitourinary Cancers and Tumor Agnostic Indications, AstraZeneca
Next gen I-O approaches – what Addressing lingering safety issues for I-O product candidates in development
Learning more about the mechanisms of adverse reactions and how to deal with them

JANUARY/FEBRUARY 2021

Understanding and overcoming mechanisms of tumour resistance
Assessing the prospects of various methods to model and modify the tumour microenvironment

MARCH 2021

Hunting for better biomarkers of response
Where is real progress being made in understanding why patients do and don't respond to I-O therapeutics?

APRIL 2021

Modelling the I-O manufacturing facilities of tomorrow
How to increase their efficiency, flexibility and productivity in line with expected future trends in supply and demand?

MAY 2021

Enhancing preclinical predictivity
What is going wrong between preclinical *in vitro/in vivo* and clinical *in vivo* settings?

Each spotlight will comprise:

- ▶ Peer-reviewed Reviews and Expert Insight articles written by leading experts in the field
- ▶ Webinars, featuring industry speakers and sponsors discussing key topics specific to the Spotlight
- ▶ Podcast, written and video interviews with key opinion leaders
- ▶ On demand roundtable discussions

Immuno-Oncology Insights' spotlights provide you with fantastic opportunities to:

- ▶ **Educate your target market** about your company's expertise, capabilities and experience
- ▶ **Share your latest data** with organisations looking for partners and service providers in your field
- ▶ **Profile your executives and scientists** as thought-leaders and KOLs
- ▶ **Generate qualified leads** from across the global sector
- ▶ **Increase awareness** of your company's role in cell and gene therapy R&D and manufacture.

JUNE 2021

Bioprocessing/CMC trends, tools and techniques
How next-gen biopharma manufacturing solutions will drive the required improvements in process and product robustness

SEPTEMBER 2021

Leveraging cutting edge tools to convert I-O data into knowledge
How recent advances in bioinformatics and other technological innovation are driving the future of I-O discovery and development

OCTOBER 2021

Boosting value and affordability: securing the commercial future of I-O therapies
Cost of goods control and clinical/HTA strategies for market access success
